MANAGEMENT DISCUSSIONS AND ANALYSIS

Overview

The Real Estate sector has emerged among the fastest growing sectors in the country. India is one of world's youngest nations with nearly two third of its population under the age of 35 years and urban India accounts for nearly 30% of this burgeoning young population. With a tailwind of booming economy, there has been a considerable increase in the number of middle and upper income households and given the higher household income coupled with easy credit availability, the real estate sector has witnessed tremendous growth in last couple of years and is expected to grow consistently over the next few years. Given the existing huge shortfall in housing and commercial units, the company has decided to enter into real estate development business. This apart, petrochemicals and petroleum is another high growth sector and given the ever growing energy requirements of the developing economies, the management has identified petrochemicals and petroleum as another growth area and is pursuing various opportunities in this segment.

Segmentwise Performance

During the year under review, the company reported gross income of Rs.545.14 lacs and profit after tax of Rs.8.53 lacs from the existing business segments of Transportation and Investment activity.

Human Relations

The human relations were cordial throughout the year.

The Company has adequate internal controls to ensure that assets are safeguarded and protected against loss from unauthorized use or disposition and transactions are authorised, recorded and reported correctly. The Audit Committee of the Board of Directors periodically reviews the internal audit reports and adequacy of internal controls.

Risks and Concerns

The company recognizes risk as an inherent aspect of the business inevitable to a certain degree. The Company believes in managing risks with a well defined strategy and believes that identification, evaluation and mitigation of risks would help in sustaining profitable growth in the future from the new business activities of real estate and petrochemicals and petroleum sectors.

Opportunities and Outlook

The company has 63 acres (approx) of land at Chembur in Mumbai which is proposed to be developed for commercial (including retailing), entertainment and residential purposes. The requisite permissions for the development are expected shortly. Simultaneously, efforts are being made to look at other opportunities in this segment. Another business segment with strong growth potential identified by the management is petrochemicals and petroleum industry and the company will make the announcements at an appropriate time in respect of the specific projects identified.

Risk Management

The Board takes responsibility for the total process of risk management in the organization. Results of the risk assessments and residual risks are presented to the Senior Management and the Audit Committee members.
